Introduction of D.A.V. Business School

D.A.V. Business School has a deep commitment to impart intensive action-based learning with one on- one advanced learning approach. Ultimately, we connect thoughts into actions thereby bridging business theories and practices through innovative modality and approaches. The MBA program of D.A.V. Business School, affiliated to Purbanchal University, is a full-time program directed at preparing prudent and proficient managers for businesses and all other management sectors. The program first focuses on instilling and then enhancing managerial and entrepreneurial capabilities of students through curricular activities.

Unequivocal Offerings of D.A.V. Business School

Navigation of Case Analysis and Development

Our graduates discover new insights and learn through integrating various insights and lessons in development cases. They begin their research avenues by case analysis.

Inspiration for Innovation

Our students find several methodologies and ways to develop originality in learning the required skills, which allows them to develop their own unique insights.

Incubation and Management Lab

They acquire supports and special trainings on how to create new startup business or of their own in the future. We also develop their ability to design and deliver innovative solutions for such tasks.

Experiential Learning

Qualitative knowledge that our graduates obtain from the learning process with internships, field trips, field researches, live learning projects and various others activities makes it easy for them to face real challenges.

Mind Mapping Approach

It is one of the top cited practical approaches from which our graduates unfold utmost creativity. This approach will focus on a scheme to create many solution choices so that graduates will be able to redefine challenges into the final pitch of the plan.

Research and Innovation Cell

An expert team encourages in research skills and needful scholarly support for value generation. Cell duly focuses graduates in the concepts and tools to design innovative ideas and equips them with innovative, effective and sustainable solutions for social change.

Research and Publications

DAV Business School provides platform to our graduates in writing scientific research papers and publication in peer reviewed 'DAV Research Journal', which consists of multidisciplinary research articles of management and social sciences. The journal has both print and online access. In this journal; graduates will have the opportunity to publish seminar researches and thesis outcomes.

Message From The Executive

MBA is not simply building strong professional leaders for corporate world but it is one of the few reliable routes to a career change. DAV Business School recognizes this requirement and thus puts emphasis on the cultivation of social and academic excellence with a firm belief that everyone should have an equal opportunity in building national and international networks with high exposure and to enhance overall personality. I would, therefore, like to invite all aspiring graduates to join DAV Business School to explore and discover your potentialities for landing in your dreams.

Mr. Rajesh Kumar Chaudhary
Programme Coordinator

DAVBS Scientific Research and Learning Center

DAVBS has scientific learning center which has been established to encourage our learner's research ability. Research skill can be increased by the resource access for research and high-level scientific investigation in management and social sciences. For the access of inquiry, DAVBS Research and Learning Center has approached the direct access of the following journals:

Our Guiding Principles

Engage

After being the member of DAV Business School, students make a psychological investment in learning. They take pride not only in learning the formal indicators of success but also in understanding the material which they bring into practice. They focus on intellectual growth and engage themselves in the achievement of higher aims.

Explore

DAV Business School's inter-disciplinary curriculum draw on Marketing, Finance, Global Management and Human Resource Management. Far from being locked into a fixed curriculum, students work with faculty members on a plan of study that is personally meaningful.

Expand

Students and faculty alike reach a new level of self-awareness and new possibilities for making a greater difference to the society.

Excel

It is instilled into the mind of our graduates that it is a world where only the fittest survives and, therefore, D.A.V. has modified its MBA program in a special way so that the graduates can excel in their professional life.

Execute

Many of our MBA graduates have leading their careers as business professionals, organizational consultants, executive coaches, human resource managers, and university professors.

Connecting Theory and Practice

DAV Business School provides a dynamic learning environment for those who value traditional classroom learning as well as on-field assignments. Faculty members' style of teaching stresses on both the theory and the practical. This approach infuses traditional academics with innovative ideas, and new methods of learning and teaching.

We provide an opportunity-rich environment where students can determine the path to explore their abilities and determine their outcome. Our role is to assist them in their journey.
